Skills

JavaScript | React | TailwindCSS | FramerMotion | MongoDB | Express | TypeScript | NodeJS | Git | Github | Photoshop

Work Experience

Ridgemont Site Solutions — Full-Stack Developer Intern

📅 Jan 2025 – Mar 2025
- Built and deployed scalable eCommerce websites using the MERN stack for international clients.
- Integrated secure payment gateways like Stripe and PayPal, improving user trust and transaction flow.
- Utilized TypeScript, TailwindCSS, and Git for efficient, modular dev across frontend & backend.

Unified Mentor Private Limited — Full-Stack Developer Intern

📅 Dec 2024 – Jan 2025
- Developed full-stack apps using React, JavaScript, HTML, and CSS.
- Optimized performance and cross-device compatibility.
- Implemented clean responsive UI with high engagement metrics.

Mapple Business Solutions — Front-End Developer Intern

📅 May 2024 – Aug 2024
- Developed responsive UIs with ReactJS, TailwindCSS, and JavaScript.
- Implemented dynamic frontend features and collaborated using Git/GitHub.

Projects

Solo Leveling Tracker – Habit Tracker & Stat Evolution System
Tech: ReactJS, TailwindCSS, Node.js, MongoDB, Express, FramerMotion, TypeScript

- Gamified personal growth app inspired by Solo Leveling — users' complete quests, level up stats, and unlock higher ranks (E → S).
- Features boss battles, visual glow transitions, and a custom levelling system. GitHub

Shadowlinks – Personal Linktree Clone
Tech: ReactJS, TailwindCSS, MongoDB, NodeJS, Express

- Sleek, mobile-first Linktree alternative to showcase your portfolio, GitHub, resume, and social links in one place.
- Fast, minimal design with hover animations and responsive layout, made for personal branding. GitHub

Portfolio Website – Modern Developer Portfolio
Tech: ReactJS, TailwindCSS, Framer Motion

- Fully responsive, dark-themed dev portfolio with animated transitions and GitHub project previews.
- Designed for recruiters to explore my work quickly, aesthetic + strategic. GitHub

HELLSTORE – MERN Stack eCommerce Platform
Tech: MongoDB, Express, React, Node.js

- Full e-commerce site featuring product pages styled like GamerSupps, cart system, and role-based dashboards.
- Secure login system, admin panel for product control, and Framer Motion glow transitions. GitHub

Certifications

Course Title	Platform
